

THE SECRET

RHONDA BYRNE

THE BIG "SO WHAT"

The Secret is the Law of Attraction, which says that "like attracts like", and our thoughts create our lives. The book explains The Secret (including stories, quotes and perspectives from New Age, self-help gurus and famous personalities like Einstein, Jung and Emerson), and outlines **how to apply it to achieve what we want in our lives.**

UNDERSTANDING THE LAW OF ATTRACTION

Like Attracts Like

Everything in the universe is made of vibrating atoms and energy, including us. **When examined under a microscope, we are masses of energy, within larger masses of energy.**

Energy vibrates at specific frequencies; our thoughts are magnetic with their frequencies too. Our personal vibrations are determined by our thoughts and feelings. When we think of something, we are transmitting these frequencies to the Universe, like a human transmission tower, and they magnetically attract things of the same frequency. In short, **like attracts like, and we attract things, people and circumstances that are of a similar vibration or frequency as ourselves.**

We attract what we think of the most

The Law of Attraction is a law of nature. It is as impartial and

KEY QUOTES

"You are the Michelangelo of your own life. The David you are sculpting is you".
- Dr. Joe Vitale

"You become what you think about most but you also attract what you think about most".
- John Assaraf

"If you don't understand the law that doesn't mean you should reject it. You may not understand electricity, and yet you enjoy the benefits of it".
- Bob Proctor

as predictable as the law of gravity, and works regardless of whether we know or believe it. **We attract what we think of the most, including:**

Good and bad thoughts:

The Law of Attraction doesn't distinguish between good or bad thoughts, and it doesn't recognize whether you want or don't want something. It simply delivers what you are thinking about most persistently. Most people don't get what they want because they are focusing more on what they don't want (e.g. they don't want to be fat/ lonely), and hence end up getting more of it.

Conscious and sub-conscious thoughts:

The Law of Attraction does not only focus on conscious thoughts. You may say that you want more money, but sub-consciously feel undeserving or doubtful about your ability to earn/ attract the money – the Universe recognizes and delivers on those sub-conscious thoughts.

Shortcuts to The Secret

We have about 60,000 thoughts a day, and it's not possible to control all these thoughts. **Our feelings can be used as a tool to become aware of what we are thinking, and to accelerate the manifestation of what we want.**

Use feelings to identify our thoughts:

You cannot concurrently feel good and bad at the same time – if you are feeling good, you know you are holding "good thoughts", and bringing more of what makes you feel good. If you are feeling bad, you can quickly catch yourself and the underlying "bad thoughts", and shift back to the positive.

KEY QUOTES

"The law of attraction doesn't care whether you perceive something to be good or bad... (When) you feel it on every level of your being...That's what you're going to get more of."
- Bob Doyle

"The law of attraction is giving you what you are thinking about-period!"

"Our feelings are a feedback mechanism to us about whether we're on track or not, whether we're on course or off course".
- Jack Canfield

Use feelings to supercharge what you wish to attract:

When you feel something strongly, it sends out strong frequencies to attract what you are feeling. That is why what we resist tends to persist (because we give it focus and feeling, attracting more of the same).

You do not need to be worried about every negative thought that you may have, because:

Not all fleeting thoughts are manifested; **what manifests most predictably are sustained thoughts that are super-charged with feelings.**

Positive thoughts are much more powerful than negative thoughts, and it takes many persistent negative thoughts to bring something negative into being.

Hence, **the best short-cut is to feel good, happy and positive everyday,** because that will bring more good things and happiness to you.

THE CREATIVE PROCESS

To change our lives, we first change our thoughts. The power of creation is in the present, in the now, when the thought is formed and being transmitted. There are 3 key steps involved in using The Secret: Ask, Believe, Receive.

Step 1 : Ask

It is our role to get clear on what we want and the specific results we desire. If we send out mixed signals, the universe will also

KEY QUOTES

"Decide right now that you are going to think only good thoughts. At the same time, proclaim to the Universe that all your good thoughts are powerful, and that any negative thoughts are weak."

"You have the power to change anything, because you are the one who chooses your thoughts and you are the one who feels your feelings".

"Step One is simply your step to get clear about what you want. As you get clear in your mind, you have asked".

give us mixed results. Write down clearly what you want, with feeling e.g. "I am so happy that" If you are crystal-clear in your request, **you need to only ask or "place your order" once**, like how you place an order at a restaurant and know with certainty that it will be delivered to you.

Step 2: Believe

When you can **think, speak and act as if you are already receiving what you want**, the Law of Attraction naturally moves people, resources and events to reflect what you already believe.

Don't worry about how it will all happen, or when your desires will be fulfilled; **have complete faith that your order has been received, and allow the Universe to do its job**. Get child-like and have fun with make-believe, as if you already have what you asked for.

Step 3: Receive

Receiving is simply about feeling good, as if we have already received what we want; In so doing, we get on the right frequency to attract what we want to us.

While we need to take action, there's a difference between "action" and "inspired action". **When we act to receive, the inspired action feels so effortless and wonderful because we are on the frequency of receiving, and we are in flow with the Universe**. This is opposed to "working" against the current and struggling with our actions.

If you constantly worry about not receiving and fret over what you need to do, you are emitting signals that you are not yet ready to receive. Instead, **follow your intuition and instincts, so the Universe can magnetically guide you on the path where you will acquire all the resources you need**, be it money, people, ideas etc.

It is common for people to start feeling doubtful when they don't see immediate results. Doubts, like other thoughts, are transmitted and made real. So, **if you catch yourself with**

KEY QUOTES

"You get to choose what you want, but you must get clear about what you want. This is your work".

"Step Two is believe. Believe that it's already yours. Have what I love to call unwavering faith. Believing in the unseen".
- Lisa Nichols

"When you emit the frequency of having received it, the law of attraction moves people, events, and circumstances for you to receive."

doubtful thoughts, release them immediately and switch to the receiving mode – and know what you want is on the way.

USING THE SECRET: TIPS & PROCESSES

To use The Secret, we need to develop awareness, and manage our thoughts and feelings. Constantly check in and ask yourself: "What am I thinking? What am I feeling? Am I aware?"

To master your thoughts:

Learn to quiet your mind, starting with 10 minutes of meditation daily.

Set the intention "I am the master of my thoughts": say it regularly and meditate on it until it becomes a part of you who you are.

To manage your feelings:

Learn to focus on good feelings: close your eyes and focus on positive feelings, smiling for 1 minute.

When you feel negative, simply shift your focus to something that makes you feel good, and allow that to become your new frequency.

Powerful Processes

As we change our thoughts and feelings, the reality of our lives will also change. The book outlines several powerful processes to expedite the shift:

Cleaning up your frequencies: At the end of every day, before you go to sleep, think through what happened in the day. If any of the events didn't go the way you wanted, recreate them in your mind in the way that makes you feel good. This helps you to clean up your frequencies for the day and emit positive frequencies the next day.

KEY QUOTES

"Receiving involves feeling the way you will feel once your desire has manifested. Feeling good now puts you on the frequency of what you want."

*"It's the feeling that really creates the attraction, not just the picture or the thought".
- Jack Canfield*

The power of expectation: Expectation is a powerful force. Therefore, expect what you want, not what you don't want.

The power of gratitude: Be grateful for what you have today, so you lock in that frequency and attract more of these good things. Say "thank you" hundreds of times a day, for everything that you have or is going right for you. Turbo-charge your Ask-Believe-Receive process by beginning your requests with "I am so happy and grateful for..." and give thanks in advance, as if you have already received what you want.

The power of visualization: Visualization generates thoughts and feelings, which help you to emit powerful frequencies to the universe. As you visualize, it is important to also feel the abundance, joy and gratitude that comes with having attained your desires. You can **create a vision board** to help you focus on what you want.

Jack Canfield summarises the creative process as such:

"Decide what you want. Believe you can have it. Believe you deserve it and believe it's possible for you. And then close your eyes every day for several minutes, and visualize having what you already want, feeling the feelings of already having it. Come out of that and focus on what you're grateful for already, and really enjoy it. Then go into your day and release it to the Universe and trust that the Universe will figure out how to manifest it."

THE SECRET IN ACTION

Using the Law of Attraction principles, Bryne touches on different aspects of our lives and how we can apply The Secret to achieve what we want.

KEY QUOTES

"If you only do one thing with knowledge of The Secret, use gratitude until it becomes your way of life."

The Secret of Your Body

To achieve your ideal weight, there are some fundamentals to note:

- The perfect weight is the weight that feels good for you.
- Don't focus on "losing weight" or you will attract more weight. Instead, focus on what you want e.g. being slim and fit.
- Know that your bodily conditions (including being overweight) is a result of your thoughts, and **release your limiting beliefs**. For example, food cannot cause you to put on weight unless you think it can.

Apply The Secret using the Ask-Believe-Receive creative process:

- **Ask:** Get clear on the weight you want to be at and have a clear picture of what you will look and feel like at that weight.
- **Believe:** See yourself as receiving that perfect weight, and don't contradict yourself with cues that say otherwise (e.g. don't weigh yourself, don't buy clothes at the current size etc.)
- **Receive:** Feel good about your body now as if it is already at the ideal weight.

The Secret to Money

Many people fail to attract the large amounts of money they desire because their need for money is such a powerful feeling that it continues to attract circumstances where they need money.

To attract money, you must have positive feelings about money, and focus on wealth/ the feelings that an abundance of money brings you. **To achieve abundance, you need to shift your mind-space from lack-of-money to more-than-enough-money. To develop such positive feelings and beliefs about money:**

KEY QUOTES

Start by using make-belief, for example:

- For the next 30 days, when you see items that you desire, consciously wipe out the thought "I can't afford that" and replace it with "I can afford that."
- Open your bills happily, by pretending the bills you are receiving are actually cheques. Or, feel great that you are receiving so much money that the amount in your bills are small by comparison.

You can also use positive affirmations daily e.g.

- "Money comes easily and frequently."
- "I have more than enough."
- "I am a money magnet."
- "I love money and money loves me."
- "I am receiving money every day."

Give money to get money:

When you give money in faith that you have more to give, the Universe will deliver more money to you accordingly. Remember to give with a joyful feeling of abundance, (rather than the feeling of sacrifice, which comes from the position of lack).

The Secret to Relationships

The book highlights several tips to attracting the relationships we desire:

- **Love yourself:** Many of us were taught to put ourselves last, and sacrifice ourselves for the good of others, which comes from a perspective of scarcity. To get more love, we have to first fill ourselves up with love; to get more respect, we need to first respect ourselves. Ask yourself: Do you treat yourself the way you'd like others to treat you? Do you love yourself the way you want to be loved by others?
- **Love others:** Many of us constantly complain about others around us, and we wonder why we attract more of such people or circumstances. When we

KEY QUOTES

radiate love – when we can see the good in everything and everyone around us – the Universe will reflect that back to us and send us all the love we want.

- **Make sure your actions are consistent with your desires:** Act as if you already have the ideal relationships you are asking for.

Mental healing is a powerful complement to medicine. The book explains how we use the Law of Attraction for better health:

The Secret to Health

- **Focus on health, not sickness:** People who are sick tend to talk about / focus on it, hence invoking the Law of Attraction for more sickness. Rather, focus on and act as if you are completely healed/ healthy.
- **Restore our natural healing powers: Our bodies are made for self-healing** (e.g. our cells naturally regenerate, and our wounds naturally heal). Most of our diseases stem from stress, which blocks our bodies' ideal functioning. Stress in turn comes from negative thoughts. **Love, gratitude and laughter are the best ways to dissolve all such negativity, and restore the body's natural healing powers.**
- **Defy the aging process:** Science has also shown that our body regenerates at a very fast pace. **By releasing our limiting beliefs (learned from society/ education) about our bodies and aging, we can defy conventional norms of aging.**

The Secret to the World and Life

We are free to define and create our own life purpose – be guided by what makes us happy and joyful, and focus on that to get more of it. The principles of the Law of Attraction likewise applies to the world at large:

KEY QUOTES

"What you resist persists"
- Carl Jung

🔍 **Focus on the cause we serve, not the obstacles in their way.** What we resist gets focus, and hence persists or even grows. To move ahead positively, **focus on what we want rather than what we don't want**, e.g. be pro-peace (not anti-war), be pro-care (not anti-abuse).

∞ **The Universe is Abundant.** The Universe is abundant and there is more than enough to fulfil everyone's **need**. Focusing on competition will only generate more competition. Focus on fulfilling the diverse needs in the world, and imagine the end results that we desire. We do not need to work out all the inventions or discoveries; **focus on the end results and allow the Universe to bring the solutions and inventions to us.**

🕒 **The Universe is not limited by time or size.** It is as easy for the Universe to give us \$1 million as it is to give us \$1. The only limitations are in our minds. To build our belief and confidence gradually, start by asking for something small, then move on to bigger items.

🌍 **We are of one Universal Mind.** We are all energy fields, in a larger energy field, **i.e. we are all connected**. Don't draw an artificial "us" versus "them" boundary; Praise and bless everyone and everything, including your enemies.

The Universe is like an infinite supplier of everything; it delivers what we want through people, circumstances, and events, using the law of attraction. We order what we want through the frequencies we emit.

OTHER USEFUL POINTS ABOUT THE BOOK

Byrne was at a low point in her life when her daughter gave her a copy of *The Science of Getting Rich* by Wallace Wattles. She was so fascinated by the ideas in the classic that she started to research the history of *The Secret*, and concluded that some of the greatest people in history (e.g. Einstein, Plato, Shakespeare, Lincoln, Newton, Hugo, Beethoven, Emerson, Edison) all knew *The Secret*.

KEY QUOTES

"Time is just an illusion... everything is happening simultaneously ...the parallel version of you with what you want already exists!"

She wanted to make a film about *The Secret*. Applying its principles, she put together a team and flew to the United States where she filmed 55 New Age “teachers”/ legends in 7 weeks (even though she didn’t have a single appointment when she left for the US).

The book combines points from the film with quotes and insights from these teachers and other famous personalities like Einstein, Jung and Emerson, as well as additional points from Byrne.
